Assunto: RE: BLUESKY PROGRAM - TIACA

Bom dia, Claudio,

Thank you and Milena for joining the call just now.

Would you please share this email with her as I do not have her email address?

As mentioned, attached you'll find the BlueSky presentation, guidelines, and our insights report.

Please take some time to review and share any thoughts that come to mind.

While it is a bit lengthy, it offers great guidance and resource for any company looking to begin and/or improve its own sustainable initiatives.

In short, the BlueSky program is the only sustainability assessment verification tool for the air cargo industry.

It's a cost-efficient way of identifying where your organization is, in relation to your sustainability journey.

BlueSky will help to 'pinpoint' what areas need to be addressed / invested-in, to operate more efficiently and sustainably.

Aside from identifying operational strengths and weaknesses, it will provide your team with a platform to showcase your initiatives, moving forward.

I'll be happy to schedule another call with your team once you've had time to review.

Enjoy the rest of your day.

Muito Obrigado,

KENNETH GIBSON

Hello my friend,
Thank you very much for accepting the invite even with the short notice...
See you soon.

Vbrgds
