Ruta a la Sostenibilidad ALTA 2024.pdf;

Dear ALTA leaders, good evening. We are happy to share with You the **White Paper on Sustainability** made by a team effort of the ALTA members specialist at the **Sustainability Committee**. Hope you enjoy and may use it when talking about this important topic. As we know, LAC has its own characteristics, and the situation needs to be seen in a special way.

1. White Paper: Ruta a la Sostenibilidad 2024/2025:

This document stems from an initiative proposed by members of the ALTA Sustainability Committee, which led ALTA to begin preparing and producing it. The White Paper outlines the unique challenges facing our region and provides actionable recommendations for authorities and stakeholders to work together toward decarbonizing the industry. We extend our gratitude to the ALTA Sustainability Committee members for their valuable contributions in proposing the initiative, identifying key issues, sharing insights, and reviewing the final document.

The White Paper will be distributed in Spanish, English, and Portuguese. during the week of December 16th. If you have any questions, or need further information, please let us know or contact our Head of Sustainability, Milena Fajardo at mfajardo@alta.aero

As a document requested and reviewed by ALTA full member airlines specialists in sustainability, ALTA will use as a position paper representing the industry in Latin America & the Caribbean. **We encourage you to use and promote it as well, supporting your association.** Also, we take the opportunity to inform all ALTA full members that we have been interviewing consultant's specialists regarding the decision taken at the AGM about the roadmap for LAC and – soon – we will come back with more information.

Thank you very much and looking forward to your thoughts.

Best,

José Ricardo Botelho

ALTA's Executive Director & CEO
